Glove Measuring Guide

The proper size will provide the best protection and performance.

It is important to properly measure your hand so that gloves fit correctly.

- Wrap a soft cloth measuring tape entirely around your dominant hand, just below the knuckles. For reference, your dominant hand would be your right if you are right-handed and left if you are left-handed.
- If you don't have a soft cloth measuring tape you can wrap a piece of string around your hand and measure the length of the string using a ruler.
- Take the full circumference measurement and compare it to the chart for the recommended glove size*.

This example shows a circumference measurement of 9 inches. The recommended glove size for this user would be Large (9).

* Estimate size to the closest fit

** Hand proportions may vary

Numeric Size	Letter Size	Inches**
5	XXS	5
6	XS	6
7	S	7
8	M	8
9	L	9
10	XL	10
11	2XL	11

Choosing The Right Dip Polymer

The dip polymer is important for the job at hand.

Nitrile

Nitrile is a synthetic polymer that is unusually resistant to chemicals, oils and fuels. Due to the superior strength of nitrile, gloves dipped with this polymer also have a higher abrasion resistance compared to other polymers.

Polyurethane

Polyurethane dipped gloves offer a high level of dexterity to the user. The dip also adheres through the entire glove liner, which prevents flakiness and peeling gloves.

Rubber

Rubber dipped gloves have an inherently strong grip ability and are the most elastic polymer. They perform well under extreme temperatures and do not tear easily. Rubber dipped gloves are not recommended for use with petroleum-based organic solvents.

Neoprene

Neoprene was invented to replace natural rubber in chemical handling situations. It is not susceptible to most hazardous chemicals and can be used safely. It also holds up well to UV light.

PVC

PVC is a low cost, liquid resistant polymer that performs well in petrochemical situations because of good abrasion resistance and flexibility at low temperatures.

Glove Finish Guide

The finish is what makes the glove unique.

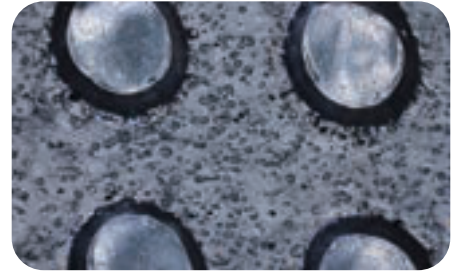

Solid

Solid dip resists penetration of liquids and has an excellent dry grip.

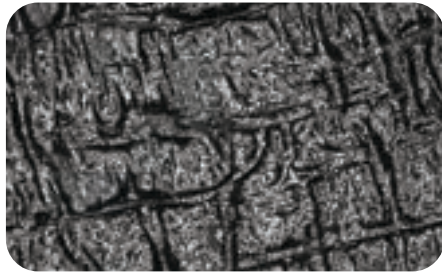

Mach Finish

The Mach Finish dip has a higher grip rating, better wear resistance and more protection than solid or foam dipped gloves.

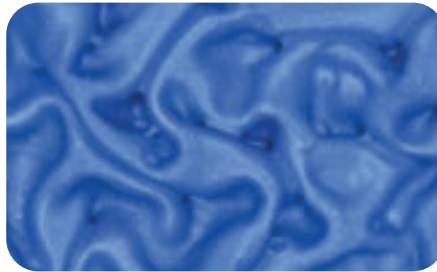

Dotted

Dotted gloves provide an extra level of grip and extra abrasion resistance when compared to standard dipped gloves, ensuring a better user experience.

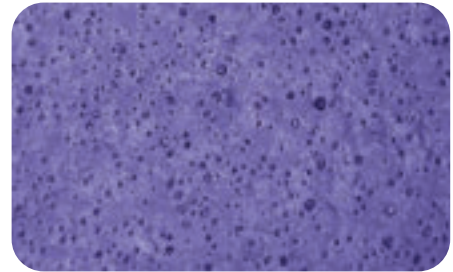

Rough Finish

Rough finish gloves have an added level of grip and better wear resistance than solid dipped gloves.

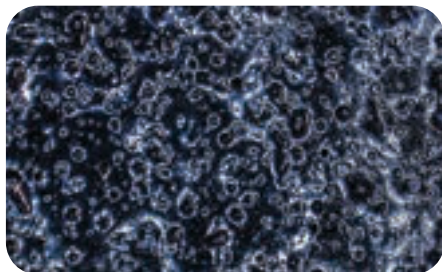

Etched

The grip factor of etched gloves is not reduced by either wet or cold conditions.

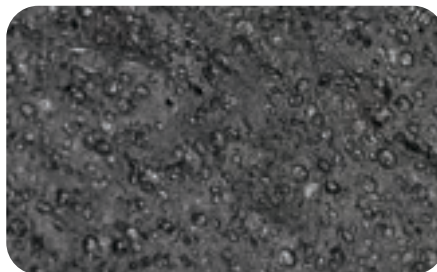

Foam

While the wear resistance of air-injected foam may not be as high as other finish types, it offers enhanced dexterity and outstanding grip in wet/oily situations.

Engineered Foam

When compared to other foam dipped gloves, engineered foam has an increased level of wear resistance, good dexterity and a lower cost.

New Foam Technology

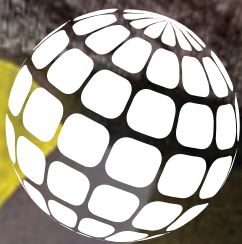

With a high degree of dexterity and grip in wet or oily conditions, New Foam Technology dipped gloves offer the user a comfortable, effective option.

Xtreme Foam Technology

A performance blended foam dip, Xtreme Foam Technology offers excellent dexterity and grip in wet or oily conditions.

Cut Resistant

Cut Resistance At Its Finest

Polyurethane coating adheres closely to lining to prevent flakiness or peeling.

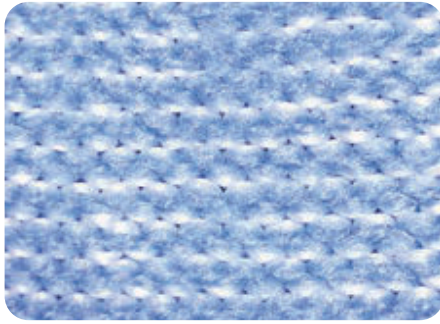

PUG-915

High-visibility Tuffalene® Platinum shell is cut resistant without enhancements from steel or fiberglass.

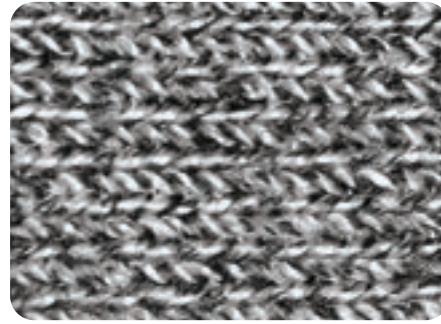

Choosing The Right Cut Resistant Fiber

Not all cut resistant fibers are created equal, choosing the right fiber is essential for safety and superior performance.

Tuffalene® Platinum

- Free of fiberglass and steel
- Silky smooth feeling
- Typically 20% lighter when comparing to other products of the same ANSI cut level
- Washable and bleachable
- Abrasion resistance
- Monofilament
- Highly dexterous
- Lint-free
- Not recommended for heat applications

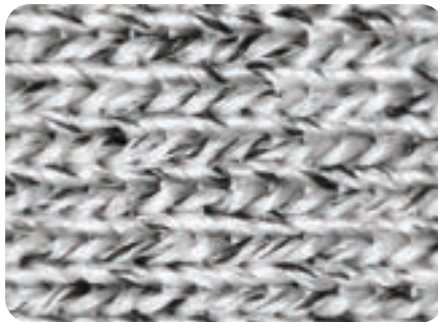

Tuffalene® UHMWPE

- Abrasion resistance
- Washable and bleachable
- Often enhanced with glass fiber or steel
- Monofilament
- Highly dexterous
- Lint-free
- Not recommended for heat applications

Aralene®

- Aramid fiber enhanced with glass fiber or steel
- Heat resistant
- Sensitive to UV light
- Not bleachable

TuffKut®

- Abrasion resistance
- Heat resistance
- Lint-free
- Washable and bleachable

Aramid Fiber

- Nonconductive
- Heat resistant
- Washable/dry clean
- Sensitive to UV light
- Not bleachable

Made with
Tuffalene®
 PLATINUM

FREE from steel and glass fiber
FREE from allergies and discomfort

A revolutionary solution for comfort on the job, Samurai Gloves® made with Tuffalene® Platinum fiber provide impressive cut resistance without the uncomfortable additions of glass fiber or steel.

PUG-913

Salt-and-Pepper Cut Resistant

- Shell is cut resistant without metal or glass fiber enhancements
- Smooth finish provides liquid protection
- Coating adheres to the liner to prevent flakiness

PUG-915

High-Visibility Cut Resistant

- Lightweight shell is cut resistant without metal or glass fiber enhancements
- Smooth finish provides liquid protection
- Coating adheres to the liner to prevent flakiness

PUG-918

Lightweight PU Coated Cut Resistant

- Offers cut resistance without metal or glass fiber enhancements
- Smooth finish provides liquid protection
- 18-gauge shell ensures bare-hand sensitivity
- Coating adheres to the liner to prevent flakiness

CIA388XFT

High-Visibility Cut and Impact Resistant Gloves

- Comfortable Tuffalene® Platinum shell
- Offers cut resistance without metal or glass fiber enhancements
- Flexible Xtreme Foam Technology coating

Made with
Tuffalene®
PLATINUM

Achieving high cut levels, without using glass fiber or steel, gloves made with Tuffalene® Platinum are safe for workers who have allergic reactions to fiberglass and offer none of the discomfort of steel.

CR913MF

Comfortable Cut, Abrasion Resistance

- Comfortable cut resistance
- Offers cut resistance without metal or glass fiber enhancements
- Mach Finish nitrile palm coating is excellent for grip in wet or oily situations

CR915MF

High-Visibility Lightweight

- Soft, comfortable cut resistance
- Offers cut resistance without metal or glass fiber enhancements
- Mach Finish nitrile palm coating is excellent for grip in wet or oily situations

CR918MF

Lightweight Comfort

- Flexible cut resistance
- Offers cut resistance without metal or glass fiber enhancements
- 18-gauge shell ensures bare-hand sensitivity
- Mach Finish nitrile palm coating is excellent for grip in wet or oily situations

CIA3800INT

Impact, Oil, Water, and Cut Resistant Insulated Gloves

- Aralene® (enhanced aramid fiber) cut resistant liner
- Proprietary oil/water resistant manufacturing process
- 100 grams 3M™ Thinsulate™ insulation
- Sewn with aramid fiber

CR3800

Cut Resistant Goatskin Leather Drivers

- Lightweight Aralene® liner provides cut and heat resistance
- Premium grain goatskin leather shell

Tested to ASTM F2675
Arc Rating (ATPV) = 50 Cal/cm²
Heat Attenuation Factor (HAF) = 95%
NFPA 70E Arc-Flash PPE Category: 4

CIA3600

Impact, Oil, Water Resistant Double Palmed Goatskin

- Proprietary oil/water resistant manufacturing process
- Soft, flexible, TPR impact protection
- Sewn with aramid fiber
- Double palm with gel padding

CIA3800

Impact, Oil, Water, Cut, Flame Resistant Goatskin

- Aralene® (enhanced aramid fiber) cut resistant liner
- Proprietary oil/water resistant manufacturing process
- Sewn with aramid fiber
- Soft, flexible, TPR impact protection

Tested to ASTM F2675
Arc Rating (ATPV) = 50 Cal/cm²
Heat Attenuation Factor (HAF) = 95%
NFPA 70E Arc Flash PPE Category: 4

CIA200MTG

Cut, Impact, Flame Resistant Grain Goatskin MIG/TIG

- Aralene® (enhanced aramid fiber) cut resistant liner
- Proprietary oil/water resistant manufacturing process
- Sewn with black DuPont™ Kevlar® fiber
- Soft, flexible, TPR impact protection

CR2100

Premium Split Cowhide

- Sewn with aramid fiber
- Washable dual layer duck webbing
- 9-oz canvas back
- Cut resistant liner

CR1200

Premium Split Cowhide

- Aralene® (enhanced aramid fiber) cut resistant liner
- Reinforced thumb crotch
- Welting in vulnerable seams
- Reinforced wing thumb

CR100MTC

Premium Cowhide MIG/TIG

- Aralene® (enhanced aramid fiber) cut resistant liner
- Four-inch split leather gauntlet cuff
- Sewn with aramid fiber

CR100MTG

Premium Grain Goatskin MIG/TIG

- Aralene® (enhanced aramid fiber) cut resistant liner
- Five-inch split leather gauntlet cuff
- Sewn with aramid fiber
- Keystone thumb

Choosing a Disposable Glove

Disposable gloves are available in several material options with a wide variety of grip styles.

Nitrile

Highly versatile, allergy conscious alternative to latex with three times the puncture resistance.

Latex

Standard disposable gloves. Elastic fitting, with comfort and dexterity advantage.

Vinyl

Economic choice for short-term, low-risk situations

Chemical Handling

Anti-Vibration and Resistance to Chemicals

Rough sandpaper finish improves grip.

Flexible foam anti-vibration protection on palm and fingers.

AV805

Nitrile coating on pre-cured ergonomic construction.

Meets EN ISO 10819 Anti-Vibration standards

Frogwear® Chemical Handling

FrogWear® chemical handling gloves are specially formulated for handling of chemical residues, oils, or greasy materials.

870-SC

Cut Resistant, Rough Finish PVC

- Specially formulated PVC
- Jersey cotton liner with foam insulation

880-SC

High-Visibility PVC

- Velvet-like foam interior
- Rough sandpaper finish

8450

Extreme Cold Anti-Freeze Nitrile

- Flexible down to -50° F
- Reflective overcasting and logo
- Two-inch velvet cuff interior

CR492

Cut Resistant Chemical Handling

- Double-dipped nitrile
- Xtreme Foam Technology palm dipped
- Flexible palm coating

8490

Premium PVC

- Highly flexible down to -5°F
- Rough sandpaper finish

Also available hang-tagged: 8490-T

8490MT

Premium PVC

- Highly flexible down to -5°F
- Rough sandpaper finish
- Heavy velvet interior

CR292

Cut Resistant PVC-Nitrile

- Double-dipped PVC and nitrile coating
- 12-inches long
- EN 374: AJKL

590MF

Double Nitrile Dipped

- Full solid nitrile coating
- Full Mach Finish nitrile coating
- Waterproof

Chemical Protection

FrogWear® Chemical Handling gloves offer protection from a variety of chemicals.

Neoprene gloves safely resist chemicals including acids, caustics, oils and alcohols.

Chemical handling gloves with anti-vibration palms offer liquid, chemical and vibration protection. They are ergonomically shaped and feature a sandpaper finish to improve grip.

AV805

Anti-Vibration Nitrile Supported

- Anti-vibration padding in palm and thumb
- Ergonomic pre-cured construction
- Sandpaper finish for better grip

8772

Heavyweight Extra-Long Nitrile Supported

- 24 inches in length
- Resistant to abrasion and many oils and chemicals

245CT

Rough Grip Neoprene Supported

- Neoprene resists a wide range of chemicals
- Soft seamless cotton liner
- Rough finish for great wet grip

9913R

Premium Rough Finish Neoprene

- Double-dipped neoprene
- Seamless 15-gauge nylon liner
- Resistant to abrasion and many oils and chemicals

Arc Flash

Protection Against Arc Flash and Flame

Cut, Impact, Flame Resistant Grain Goatskin MIG/TIG

Soft, flexible, TPR impact protection

Proprietary oil/water resistant manufacturing process

Sewn with black DuPont™ Kevlar® fiber

Aralene® cut resistant liner

CIA200MTG

4.5-inch split leather gauntlet cuff

Tested to ASTM F2675
Heat Attenuation Factor (HAF) = 93%
NFPA 70E Arc Flash PPE Category: 3

CR100MTG

Premium Grain Goatskin MIG/TIG

- Aralene® (enhanced aramid fiber) cut resistant liner
- Five-inch split leather gauntlet cuff
- Sewn with aramid fiber

Tested to ASTM F2675
 Arc Rating (ATPV) = 46 Cal/cm²
 Heat Attenuation Factor (HAF) = 94%
 NFPA 70E Arc Flash PPE Category: 4

CR3800

Cut Resistant Goatskin Leather Drivers

- Lightweight Aralene® liner provides cut and heat resistance
- Premium grain goatskin leather shell

Tested to ASTM F2675
 Arc Rating (ATPV) = 50 Cal/cm²
 Heat Attenuation Factor (HAF) = 95%
 NFPA 70E Arc-Flash PPE Category: 4

CIA3800

Impact, Oil, Water, Cut, Flame Resistant Goatskin

- Aralene® (enhanced aramid fiber) cut resistant liner
- Proprietary oil/water resistant manufacturing process
- Sewn with aramid fiber

Tested to ASTM F2675
 Arc Rating (ATPV) = 50 Cal/cm²
 Heat Attenuation Factor (HAF) = 95%
 NFPA 70E Arc Flash PPE Category: 4

CIA3300

Golden Goatskin + Impact

- Enhanced Aralene® (enhanced aramid fiber) liner
- Sewn-in palm padding

Tested to ASTM F2675
 Arc Rating (ATPV) = 43 Cal/cm²
 Heat Attenuation Factor (HAF) = 93%
 NFPA 70E Arc-Flash PPE Category: 4

CR3200

Cowhide Cut, Heat Resistant

- Aralene® (enhanced aramid fiber) cut resistant liner

Tested to ASTM F2675
 Arc Rating(ATPV) = 35 Cal/cm²
 Heat Attenuation Factor, HAF = 94%

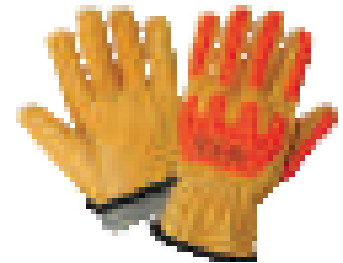

CR100MTC

Premium Cowhide MIG/TIG

- Aralene® (enhanced aramid fiber) cut resistant liner
- Four-inch split leather gauntlet cuff

• Sewn with aramid fiber
 Tested to ASTM F2675

Protection From Impact, Abrasion and Cut Hazards

Impact protection provides flexible protection to back of hands and fingers, helping to prevent injuries from falling objects.

Reinforced thumb crotch extends the life of gloves by supporting common wear areas.

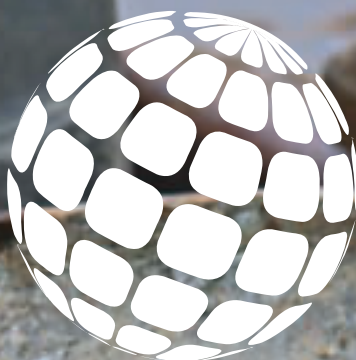

Hook and loop closure customizes fit for optimal safety and protection

CIA417V

Padded palm protects hands from vibration damage and impact injuries.

Bullhead Safety™ Head Protection - Hard Hats

HH-C2

HH-C1

HH-C3

Cap Style Hard Hat

- Lightweight, low profile, and reversible
- Fits 2-point and 4-point chin straps
- Proprietary Gripster™ dots under brim
- Fits hat sizes 6.5 to 8
- Accessory slots
- See below for available colors

HH-C1 - Unvented, Slide Lock Suspension

- Compliance: ANSI Z89.1-2014, Type 1, Class C

HH-C2 - Unvented, Ratchet Suspension

- Compliance: ANSI Z89.1-2014, Type 1, Class C

HH-C3 - Vented, Ratchet Suspension

- Compliance: ANSI Z89.1-2014, Type 1, Class C

HH-CH1

Climbing Style Protective Helmet

- Ultra-lightweight, nonconductive ABS shell
- Proprietary design and mold
- Adjustable 4-point chin strap
- Accessory slots
- Pre-assembled, pivoting 6-point suspension with adjustable ratchet and brow pad
- Fits hat sizes 6.5 to 8
- Compliance: ANSI Z89.1-2014, Type 1, Class C
- Available in white, yellow, matte black graphite, and high-visibility yellow/green

Unvented Full Brim Hard Hat

- Lightweight low profile design
- Proprietary Gripster™ dots under brim
- Pre-assembled, pivoting 6-point suspension with adjustable ratchet and brow pad
- Fits 2-point and 4-point chin straps
- Compliance: ANSI Z89.1-2014, Type 1, Class E
- Available in yellow, white, matte black graphite, blue, and high-visibility yellow/green

HH-F1

Baseball Style Bump Cap

- Soft inner foam cushion
- Removable, vented inner shell
- Washable outer shell
- Available in high-visibility yellow/green, black and navy blue

HH-H1

Vented Bump Cap With Four-Point Slide Lock Suspension

- Lightweight polyethylene shell
- Ventilation holes
- Pre-assembled slide lock suspension with two-point a chin strap
- Replaceable sweatband
- Fits hat sizes 6.5 to 8
- Available in white, yellow, blue

FrogWear® HV

Enhanced Night Visibility with Illuminated Safety Vests

These FrogWear® Safety Vests are equipped with LED lights or photoluminescent trim to keep you safe and visible, even in the dark. LED lights feature a variety of light pattern options and battery or USB charging options and photoluminescent trim glows in the dark after exposure to light. These vests ensure workers won't be missed in low light conditions.

LED Mesh Surveyors Vest

- Front LED lights - white
- Back LED lights - red
- LED lights have 3 light patterns
- 60 hr continuous battery life
- Powered by 3 AA batteries or portable USB charger*
- Mic holders and D-ring

GLO-315LED

Mesh LED Vest

- Prismatic ORALITE® Reflective
- 3 LED light patterns
- 24 hr continuous battery life
- Powered by 2 AA batteries*
- Contrasting trim

GLO-12LED

***DISCLAIMER:** Self Extinguishing garments are made from material that is not inherently flame retardant, but are chemically treated to become flame resistant. They are NOT designed for use in ARC flash or flash fire applications. When a flame source is removed from the treated material, the material will self-extinguish within a given time frame. The treated material can melt and drip and has a limited life span dependent on washings and what the garment is exposed to. Performance is established using the ASTM D6413 test method.

ANSI Class 2 Vests

Breakaway, adjustable and more. The right vest for the right job is here.

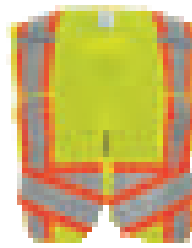

Flame-Resistant Surveyors Vest

- Anti-static modacrylic mesh
- FR silver reflective, zipper, and mic tabs
- D-ring opening
- US Patent 9,765,453 B2

Tested to ASTM F1506
ATPV = 5.1 cal/cm²
NFPA 70E Arc Flash PPE Category: 1

- Padded hinge design

KP311G

Premium Gel-Lined with PVC Hard Cap

- Breathable and stretchable body
- Padded thigh strap, neoprene calf strap
- Ergonomically curved fit
- Adjustable thigh and calf closures

KP301J

Premium Lined with Jelly-Gel

- Medical-grade PU foam padding
- Diamond-block non-slip cap
- Ergonomically curved cap
- Honeycomb single-knit top layer

KP111G

Lightweight Gel-Lined Cap-Free

- Heavy-duty nylon face
- Non-slip synthetic leather surface
- Ergonomically curved fit
- Upper adjustable strap with buckle closure
- Wide adjustable lower neoprene strap

Knee Pads and Kneeling Pads

KP511L

Heavy-Duty Non-Marring Leather Knee Pad

- Premium-grade grain leather face
- Three-quarter inch soft felt padding
- Wide adjustable leather strap with steel buckle

KP201G

Gel-Lined Swivel Cap

- Hard PE swivel cap
- Ergonomically curved fit
- Clip-on closures with buckles

KP422

High-Density Padded Cap-Free

- Non-slip synthetic leather surface
- Polyester body with high density padding
- Ergonomically curved fit

KP411

Non-Marring PVC Hard Cap

- Extra long molded PVC hard cap
- Slip resistant ridges
- Ergonomically curved fit

KP401

High-Visibility Non-Marring Hard Cap

- PE hard, curved swivel cap
- Ergonomically curved fit
- Adjustable and stretchable high-visibility hook and loop closures

KP431

Non-Marring Swivel Cap

- Brass riveted PVC curved swivel cap
- Ergonomically curved fit
- Clip-on closure with buckles

KP442

Economy Low-Profile

- Foam surface with gripping ridges
- Gripping ridges
- Ergonomically curved fit
- Adjustable hook and loop closure

KP452

Disposable, Removable EPE Foam

- Peel-and-stick application
- Fits most working pants
- Can be worn inside or outside of garments
- Can be adhered to surfaces

KP482

KP480

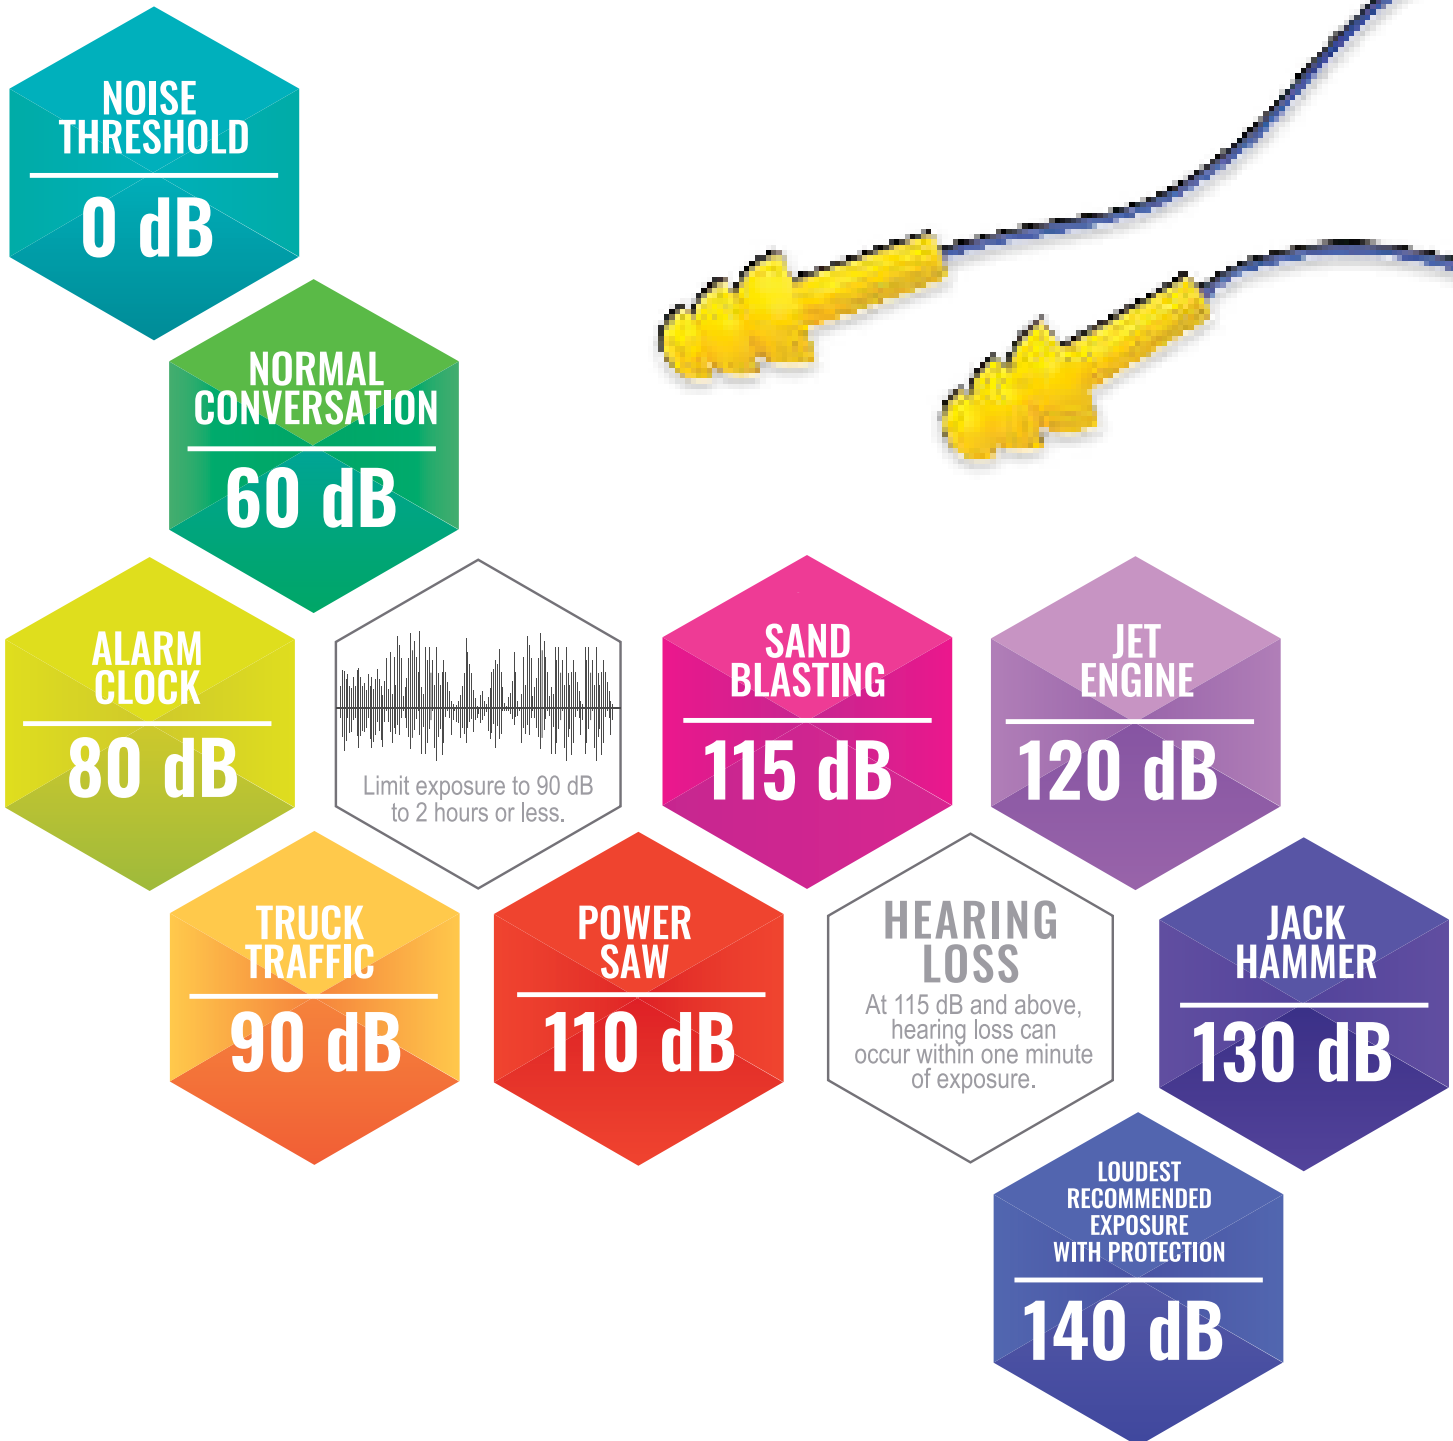

High-Density NBR Foam Kneeling Pad

- Water-repellent NBR foam
- Carrying handle
- KP482 - 14 in x 21 in x 1 in with carrying handle
- KP480 - 8 in x 16 in x 1 in with carrying handle

Choosing The Right Hearing Protection

It is critical to use adequate hearing protection to avoid long lasting damage.

Permanent hearing loss can result from extended exposure to unsafe levels of sound. This type of hearing loss is irreversible and cannot be corrected with hearing aids or other equipment. In addition to temporary or permanent hearing loss, loud noises can also create physical and psychological stress and interfere with productivity and communication.

Hearing Protection

Earmuffs

You could miss hearing important things because of hearing damage. Don't let uncomfortable earmuffs stop you. Bullhead Safety® Hearing Protection is flexible, comfortable and safe.

HP-M3

Premium Cap-Mounted Earmuff

- Noise Reduction Rating (NRR) 22 dB
- Durable ABS cups
- Fits most standard slotted hard hats
- Soft PVC cushions
- Features 3 multi-position pivot points

HP-M1

Economy Earmuff

- Noise Rate Reduction (NRR) 23 dB
- Durable ABS cups
- Soft PVC ear cushions
- High-visibility yellow/green
- Hygiene/replacement kit - HP-M1-RK

HP-M2

Premium Foldable Earmuff

- Noise Reduction Rating (NRR) 23 dB
- Conveniently folds for easy storage
- Durable ABS cups
- Soft PVC ear cushions
- High-visibility yellow/green

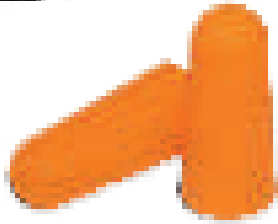

HP-M4

Premium Padded Earmuff

- Noise Reduction Rating (NRR) 27 dB
- Padded band provides increased comfort
- Durable ABS cups
- Soft PVC cushions
- Hygiene/replacement kit - HP-M4-RK

Earplugs

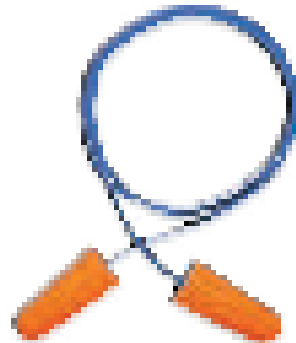

HP-F1

Single-Use Foam Earplugs

- Slow rebound PU foam
- 200 pairs per display box

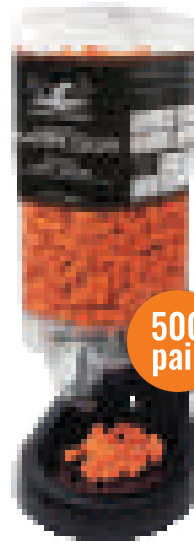

HP-F2

Single-Use Foam Earplugs

- Blue PVC cord
- Slow rebound PU foam
- 100 pairs per display box

500 pair

HP-FDL1

Foam Earplugs Dispenser

- Includes 500 pairs
- Bracket for wall mounting
- 500 pairs refill pack - HP-FDL1-RF

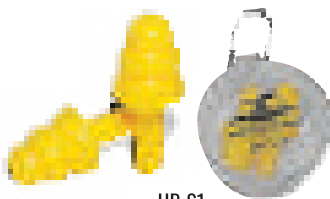

250 pair

HP-FDS1

Foam Earplugs Dispenser

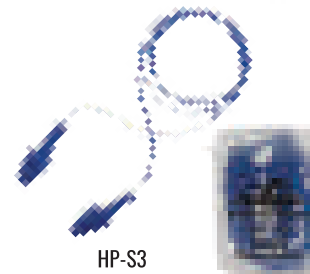

- Includes 250 pairs
- Bracket for wall mounting
- 250 pairs refill pack - HP-FDS1-RF

HP-S1

HP-S2

HP-S3

Silicone Tree-Shape Earplugs

- Hypoallergenic silicone
- Low-pressure seal
- 100 pairs per display box

Silicone Tree-Shape Earplugs

- Hypoallergenic silicone
- Low-pressure seal
- 100 pairs per display box

Metal Detectable Silicone Earplugs

- Hypoallergenic silicone
- Low-pressure seal
- 100 pairs per display box

HP-BF1

Lightweight Banded Earplugs

- Lightweight, curved band and soft, ergonomic pods
- Includes one band, two pairs of earplugs
- Reduces pressure on ear canal
- Tested to the ANSI S3.19-1974 standard

ITR3600

Anti-Slip Traction Cleats with Carbon Steel Studs

- Flexible TPE rubber with pull tab
- Four heat-treated carbon steel studs at the heel, six at ball of foot
- Strong and flexible in subzero temps
- Warning: Not recommended for use indoors
- Sizes: Medium - 2XL

ITR3610

Adjustable, Anti-Slip Traction Cleats with Carbon Steel Studs

- Flexible TPE rubber with reflective pull tab
- Five heat-treated carbon steel studs at heel and ball of foot
- Adjustable cinching cord
- Tread pattern in foot arch
- Strong and flexible in subzero temps
- Warning: Not recommended for use indoors
- Sizes: Medium - XL

ITR3615

Anti-Slip Traction Heel Cleats with Carbon Steel Studs

- Durable, lightweight, rigid TPE
- Heat-treated carbon steel cleats (size M - 4, size XL - 5)
- Hook-and-loop closure strap
- Warning: Not recommended for use indoors
- Sizes: Medium and XL

ITR3620

Anti-Slip Mid-Sole Traction Cleats with Tungsten Carbide Studs

- Seven tungsten carbide studs on cleat pad
- Adjustable, orange, elastic strap
- Strong and flexible in subzero temps
- Works great in mid-sole along with ball of foot
- Warning: Not recommended for use indoors
- One Size

WL920FR

Inherently FR Flame Resistant Shoulder-Length

- Meets ASTM F1506 NFPA 70E
- 3M™ FR Thinsulate™
- Modacrylic/cotton red fleece lining
- FR modacrylic/cotton shell

Arc Rating (Ebt) = 31 cal/cm²
Heat Attenuation Factor (HAF) = 91%
NFPA 70E Arc Flash PPE Category: 3

WL900FR

Inherently FR Flame Resistant Regular-Length

- Meets ASTM F1506 NFPA 70E
- 3M™ FR Thinsulate™
- Modacrylic/cotton red fleece lining
- FR modacrylic/cotton shell

Arc Rating (Ebt) = 31 cal/cm²
Heat Attenuation Factor (HAF) = 91%
NFPA 70E Arc Flash PPE Category: 3

WL770FR

FR-Treated Shoulder-Length

- FR modacrylic/cotton outer shell
- Foam inner layer
- FR-Treated Red Fleece Lining
- Warming pockets over ears

WL520

Sherpa-Lined Shoulder-Length

- Quilted polyester tricot shell
- Foam inner layer
- Warming pockets over ears

WL420

Economy Shoulder-Length

- Two-layer polyester shell
- Soft, red fleece lining
- Hook and loop chin strap

WL500

Sherpa-Lined Regular-Length

- Quilted polyester tricot shell
- Foam inner layer
- Warming pockets over ears

WL400

Economy Regular-Length

- Two-layer polyester shell
- Soft, red fleece lining
- Hook and loop chin strap

Balaclavas

WL320SE

Self-Extinguishing, Multifunctional, Hinged, Shoulder-Length Thermal Balaclava

- Soft fleece shell
- Self-extinguishing/flame-retardant treated
- Breathable fleece/mesh mouth and nose panel
- Multiple wearing configurations

WL310-YG

HV Multifunctional, Hinged, Shoulder-Length Thermal Balaclava

- Soft fleece shell
- Breathable mesh mouth panel
- Multiple wearing configurations

WL280FR

Inherently FR Flame-Resistant Shoulder-Length Thermal Balaclava

- FR modacrylic/cotton shell
 - Meets ASTM F1506 NFPA 70E
- Arc Rating (EBT) = 11 Cal/cm²
Heat Attenuation Factor (HAF) = 85%
NFPA 70E Arc Flash PPE Category: 2

WL120

Shoulder-Length Fleece Balaclava

- Soft fleece lining

WL220

Shoulder-Length Fleece Balaclava

- Soft fleece lining
- Lightweight spandex top

WL300-YG

High-Visibility Yellow/Green Thermal Neck Gaiter

- Soft fleece shell
- Integrated cinch strap with an adjustable cord lock

NG-401

U.S.A. Flag Design Multi-Function Neck Gaiter

- Seamless soft, breathable, cooling polyester/spandex
- Four-way lateral stretch
- 10+ ways to wear
- Repels stains and moisture, quick-drying with odor control

NG-402

Underwater Wildlife Design Multi-Function Neck Gaiter

- Seamless soft, breathable, cooling polyester/spandex
- Four-way lateral stretch
- 10+ ways to wear
- Repels stains and moisture, quick-drying with odor control

NG-403

Joker Design Multi-Function Neck Gaiter

- Seamless soft, breathable, cooling polyester/spandex
- Four-way lateral stretch
- 10+ ways to wear
- Repels stains and moisture, quick-drying with odor control

NG-200

High-Visibility Orange Multi-Function Neck Gaiter

- Seamless soft, breathable polyester microfiber
- Two-way lateral stretch
- 10+ ways to wear
- Repels stains and moisture, quick-drying with odor control

NG-201

High-Visibility Yellow/Green Multi-Function Neck Gaiter

- Seamless soft, breathable polyester microfiber
- Two-way lateral stretch
- 10+ ways to wear
- Repels stains and moisture, quick-drying with odor control

NG-202

Mexican Flag Design Multi-Function Neck Gaiter

- Seamless soft, breathable polyester microfiber
- Two-way lateral stretch
- 10+ ways to wear
- Repels stains and moisture, quick-drying with odor control

NG-203

Orange/Black, Shark/Cross Bones Design Multi-Function Neck Gaiter

- Seamless soft, breathable polyester microfiber
- Two-way lateral stretch
- 10+ ways to wear
- Repels stains and moisture, quick-drying with odor control

NG-204

Camouflage Design Multi-Function Neck Gaiter

- Seamless soft, breathable polyester microfiber
- Two-way lateral stretch
- 10+ ways to wear
- Repels stains and moisture, quick-drying with odor control
